Board Policy #2340 - FIELD AND OTHER CORPORATION-SPONSORED TRIPS OUT OF STATE/OVERNIGHT FIELD TRIP REQUEST

CHECKLIST

WHO: Joe Anderson

WHAT: East Coast STEM:New York City and Boston, MA featured by WorldStrides

WHEN: 6 days in June 2020

WHERE: New York City & Boston

CHAPERONES:

Parents: none at this tiem

**all chaperones will have a background check on file with MVCSC prior to departure or will be deemed ineligible to attend the trip*

Teacher: Joe Anderson and one other if group number exceeds 15 students.

Tour Directors: Provided by the company WorldStrides.

TRANSPORTATION: Flying out of Indianapolis Airport, all travel arrangements are made by WorldStrides. Will either have students meet us airport or meet at the school and minibus to the airport.

COST: $3000 per student

WHY: See below itinerary. Every event planned out is STEM related and gives students a chance to see parts of world while engaging in STEM activities.

MEDICAL RELEASES/PARENT PERMISSION ON FILE: Through 3rd party company. Will check with their policy and get with Misty Staton if need be.

SAFETY AND SUPERVISION PROVISIONS:

Trip Itinerary:

DAY 1

- Travel to New York City
- Meet your WorldStrides representative, participate and begin your once-in-a- lifetime Experience!
- National Geographic Encounter. Students will engage with an immersive underwater experience that transports them across the Pacific Ocean. They will learn about marine biology and ecosystems, and ocean conservation. Groundbreaking technology makes this adventure a visual and aural spectacle.
- Dinner in Times Square
- Hotel check-in

DAY 2

- Breakfast

- New York Academy of Science Wind Turbine Workshop. Students will learn about clean energy options by designing and experimenting with wind turbines to determine how to maximize power output, and learning how to use a digital multimeter to measure power output.
- Lunch
- Intrepid Air and Space. Visit the renowned museum aboard an aircraft carrier docked in New York City. Explore the ship and its many artifacts and interactive exhibits including the space shuttle Enterprise and a decommissioned submarine. Learn about history and STEM fields all in one location!
- Dinner
- Broadway Show. Enjoy the excitement and pageantry of a Broadway show and pose for a group photo in Times Square. No matter which show you end up seeing, it's sure to be a once-in-a-lifetime experience.
- Return to hotel

DAY 3

- Breakfast and hotel check-out
- Brooklyn Bridge. Walk across this iconic New York City bridge while taking in breathtaking views of the Manhattan skyline and the Statue of Liberty. Consider the engineering and mechanical feats required to build this structure in the late 19th century.
- 9/11 Memorial. Reflect as you visit the twin pools paying tribute to the nearly 3,000 victims of the September 11, 2001, attacks. Created as a living part of the city, this memorial is a green space meant for reverence and remembrance.
- One World Ride an elevator up 102 stories in only 47 seconds! You'll be awed by the spectacular 360-degree view of the city.
- Wall Street. Walk through America's financial center, home to the New York Stock Exchance, the Federal Reserve Bank of New York, Chase Manhattan Bank, and Federal Hall.
- Depart for Boston, MA
- Lunch along the way
- Dinner
- Explore Quincy Market (on own) Explore this historic local hangout filled with shops, stalls, food, and performance artists.
- Hotel check-in

DAY 4

- Breakfast
- MIT Lab Tour Your tour will include one of the following:\

Nuclear Reactor Lab: Visit the Nuclear Reactor Lab, home of the second largest university research reactor in the United States. This cutting edge interdepartmental research center at MIT will provide students with information related to current nuclear science applications.

Lincoln Lab: Visit the Lincoln Lab, a federally funded research and development laboratory for the US Department of Defense that collaborates with scientists and engineers at MIT. Students will learn about cutting edge technologies and working in interdisciplinary teams to solve problems in support of national security.

- Lunch
- MIT Museum Sail into Engineering Students learn about the engineering design process by building and testing their own model boat. Participants will use modern technologies, such as computer-aided-design and laser cutting, and explore the methods that Nathanael Herreshoff used to design and build over 2000 boats, including five America's Cup winning yachts, at the turn of the 20th century.
- Lunch
- StageOne Robotics and Coding Helicopter Workshop In this workshop designed and operated by MIT PhD graduates, students have the opportunity to collaborate on both hardware and software design by building circuitry and writing software together. Utilizing an Arduino microprocessor as the base, they build, program and fly a helicopter that they create in small groups.
- Dinner
- Return to hotel

DAY 5

- Breakfast
- Whale Watching Experience the gentle giants of the sea in the waters outside Boston. Learn about these amazing creatures during a boat tour.
- Lunch
- Fenway Park STEM Tour. Enjoy an educational behind-the-scenes tour of the famous Fenway Park. Students will consider both the history and the STEM connections between this beloved landmark and the game of baseball.
- Dinner
- Boda Borg Experience "questing" in a real-world gaming environment. Tackle mental and physical challenges to progress through your Quest at this escape room like destination.
- Return to hotel

DAY 6

- Hotel check-out

- Breakfast
- New England Aquarium Squid Anatomy Workshop Through hands-on exploration of a real squid, students receive an introduction to dissection skills while learning to appreciate one of the most fascinating animals in the ocean.
- Lunch
- Duck Boat Tour (depending on flight time) This unique, fact-filled tour shows you all the sites of Boston from both the city streets and the Charles river.
- Transfer to the airport
- Depart from Boston, MA for home

Board Policy #2340 - FIELD AND OTHER CORPORATION-SPONSORED TRIPS
OUT OF STATE/OVERNIGHT FIELD TRIP REQUEST
