Minutes:

Pursuant to Indiana Code § 20-26-7-37, before a school corporation may spend more than \$1,000,000 to build, repair or alter a school building that will be financed by a lease or bonds, it must hold a public hearing at which explanations of the potential value of the project to the school corporation and community are given.

These public hearings are the very beginning of the legal process. The projects, in whole or in part, will not begin prior to January 1, 2025. No tax impact could occur prior 2026. The projects may be completed in full, in part, or not at all, depending on the need at the time as determined by the board.

Regarding the additional appropriation hearing, an appropriation in the amount not to exceed \$3,315,000 from the proceeds of the bonds, including all original issue premium and all investment earnings thereon, to be deposited in the School Corporations Construction Fund (Fund #2301) on account of the renovation of and improvements to facilities throughout the school corporation, including deferred maintenance and repairs, site improvements, and the purchase of real estate, technology hardware and devices, and equipment (the "Project") in the School Corporation, including the incidental expenses necessary to be incurred in connection with the Project and the issuance of Bonds on account thereof. The funds to meet such additional appropriation are to be provided by the issuance and sale of Bonds by the School Corporation.

All public hearings, public comments, public notices, and passage of relevant resolutions regarding the original project and previous financing of a portion of the project through a general obligation bond sale occurred at the October 17th, 2022 board meeting. The remaining portion of bond capacity will be sold by June 30th, 2023. The board need not pass any additional resolutions or take any further action beyond considering the additional appropriation request as all other legal requirements have been met.

Mr. Gray opened the public hearing and if anyone would like to comment.

No one made a comment.

Mr. Gray closed the public hearing.

An appropriation in the amount not to exceed \$3,315,000 from the proceeds of the Bonds, including all original issue premium and all investment earnings thereon, to be deposited in the School Corporation's Construction Fund (Fund #2301) on account of the renovation of and improvements to facilities throughout the school corporation, including deferred maintenance and repairs, site improvements, and the purchase of real estate, technology hardware and devices, and equipment (the "Project") in the School Corporation, including the incidental expenses necessary to be incurred in connection with the Project and the issuance of Bonds on account thereof. The funds to meet such additional appropriation are to be provided by the issuance and sale of Bonds by the School Corporation.

The foregoing appropriation is in addition to all appropriations provided for in the existing budget and tax levy, and a need for such appropriation exists by reason of the inadequacy of the present buildings to provide necessary school facilities in the School Corporation.
