# Guiding Principles

## 1 Consistent School Day Length

The length of the school day for students should remain the same, ensuring consistency for both students and teachers.

## 2 Additional Time to Transport Students

Extra time has been allocated to accommodate the assimilation of 5th graders into the Tier 2 routes, ensuring a smoother transition for these students.

## 3 Maintaining Current Release Time

The existing high school and middle school release time will be maintained allowing for flexibility for students who work, participate in extracurricular activities, or need time for transportation to events.

# Schedule Options Explored

## Three-Tier Schedule

- Tier 1: Elementary
- Tier 2: High School
- Tier 3: Intermediate and Middle School

## Flip-Flopping Schedule

Grades 5-12 would go before the elementary students.

## Two-Tier Schedule

Options for 5th-grade transportation and the delivery order of high school, intermediate, and middle school students were explored.

# Recommendation: Two-Tier Bell Schedule

## 5th Grade with Elementary

5th graders will be transported with elementary students.

## Administrator Approval

All Building Administrators, Athletic Directors, and the Director of Operations have approved this recommendation.

## High School/Intermediate First

High school and intermediate school students will be delivered before middle school students.

# Safety for all children is our goal.

**1** “Does any other school district have 5<sup>th</sup>/6<sup>th</sup> graders riding with high school students.”

Yes. In fact, previously, Mt. Vernon operated an intermediate school and 5<sup>th</sup>/6<sup>th</sup> graders rode the bus with high school and middle school students. There were not any problem.

**2** “Not sure about 5<sup>th</sup>/6<sup>th</sup> graders riding with high school students.”

In my experience, there is very little interaction between intermediate and high school students.

**3** “Will my 5<sup>th</sup>/6<sup>th</sup> grader be sitting with high schoolers?”

Students will be assigned areas on the bus. Specifically, intermediate students will be in the front, middle school students in middle of the bus, and high school students assigned to the back of the bus.

# Key Takeaways

1

## Collaboration

The new bell schedule was a result of comprehensive collaboration between various stakeholders.

2

## Student Well-Being

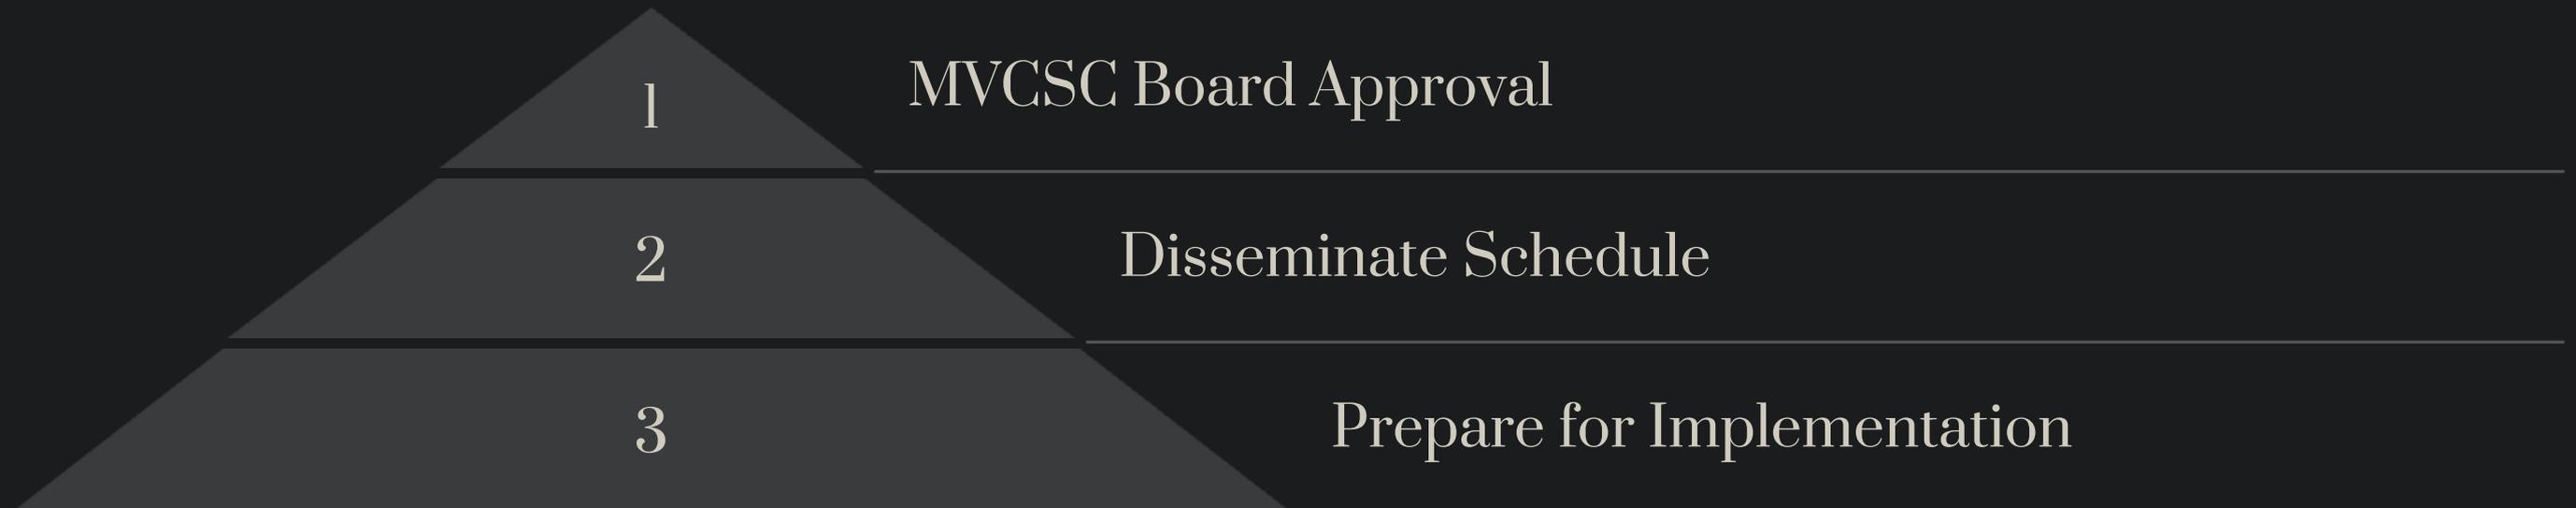

The schedule prioritizes student well-being and smooth transitions.

3

## Flexibility

The schedule offers flexibility for students, staff, and transportation needs.

# Next Steps

The new bell schedule will be disseminated to all stakeholders. We will proactively communicate with parents and prepare our schools for a smooth implementation.
